

## JUST WHAT YOU NEED TO BREAK THE ICE.

Our superior sanding and salting solutions are now even better. Arctic's newest spreaders are engineered with two things in mind: ease and durability. Our spreaders and sanders are easy to operate and maintain, and offer an all-new level of toughness, courtesy of our innovative galvanized coating. Hydraulic, electric and gas options are available.

### NEW STANDARD EQUIPMENT

includes drop-in screen, fixed lifting hook, bolt down brackets and forward slide stop bracket, adjustable chute, and ratchet tie downs. Top screens keep out large lumps of frozen product to avoid any jam up in the feeder chain at the bottom of the hopper

**GAS, ELECTRIC OR HYDRAULIC DRIVE**  
your choice

**ACCESSIBILITY TO ALL COMPONENTS**  
makes it easier to remove the gear box without removing the spreader drive

**COMPLETELY GALVANIZED BODY**  
superior durability and resistance to abrasion, water and rust means your investment has a longer service life

**TIE-DOWN STRAPS AND FORWARD MOTION STOP PLATE**  
secure the sander and its load to the vehicle so the sander won't dislodge itself from the truck box

**TRUCK SIDE AND SANDER SIDE WIRING AND IN-CAB CONTROLS**  
allows the sander to be unplugged and removed from the truck, leaving each side ready to be plugged in when reinstalled

**TWO-PIECE SPINNER SHAFT**  
allows for easy removal and access to trailer hitch

Your choice of gas or hydraulic drive. Take your pick.

#### GAS ENGINE – AG

Our gas engine spreader is powered completely by a belt-driven motor, and features in-cab controls, electric start, electric throttle, electric clutch and truck battery attaching harness. Select from 10.5 HP Briggs and Stratton or 11 HP Honda engines.

#### HYDRAULIC – AGH

Our hydraulic powered spreader requires a central hydraulic pump system with a 5 to 8 Gallon/Min pump, plus suction and pressure hoses. Available in single and double motor drives, with either cab- or tank-mounted flow divider controls.

#### ELECTRIC – AGE

Our 12v 3/4 HP electric spreader comes standard with on/off in cab controls and has a variable speed controller as an option. It also features a stainless steel drive chain and hardened sprockets.
